CS Graduate | Data Science | Leadership & Innovation

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in machine learning, data analysis, and software development. Research experience includes cybersecurity, risk prediction, and explainable AI, with several papers submitted to journals. Strong analytical and problem-solving skills with experience working on technical projects and collaborating with others. Interested in using technology and data to solve real-world problems while developing a career in a challenging corporate environment that values data-driven innovation.

EDUCATION

Master of Science (M.Sc.) in Computer Science & Engineering (Major: Data Science)

Daffodil International University, Dhaka, Bangladesh

May 2026 – Expected Aug 2027

CGPA: 3.75 / 4.00 | **Friday/Weekend Program**

Bachelor of Science (B.Sc.) in Computer Science & Engineering

Daffodil International University, Dhaka, Bangladesh

Jan 2022 – Jan 2026

CGPA: 3.17 / 4.00 | **Thesis Grade: 4.00 / 4.00**

Higher Secondary Certificate (HSC)

Cantonment College Jashore, Bangladesh

Jun 2018 – Jan 2021

GPA: 5.00 / 5.00

SKILLS

- **Soft Skills & Business:** Strategic Problem Solving, Leadership Potential, Cross-functional Collaboration, Business Analytics, Process Optimization, Stakeholder Management, Data-Driven Decision Making, Risk Assessment, Executive Presentation & Communication
- **Programming Languages:** Python, C++, C, Java, JavaScript
- **APIs, MLOps & Cloud:** REST APIs, FastAPI, Docker, MLflow, CI/CD, Amazon Web Services (AWS), Google Cloud Platform (GCP)
- **Machine Learning & GenAI:** Predictive Modeling, LLMs, RAG, Neural Networks, LangChain, PyTorch, Scikit-Learn, Fine-Tuning, Vector Databases
- **Databases & Data Engineering:** SQL, MySQL, NoSQL, Relational Database Design, Data Science & Analytics
- **Tools & Platforms:** GitHub, Amazon SageMaker, Google Colab, Hugging Face
- **Documentation & Productivity:** MS Office (Word, Excel, PowerPoint), LaTeX

LEADERSHIP & ENGAGEMENT

- **Graduate, Aspire Leaders Program** – *Competitive global leadership program founded by Harvard faculty; trained in Adaptive Leadership, Design Thinking, and Cross-Cultural Communication.*
- **Member, Daffodil AI Club** (Participated in workshops and technical sessions)
- **Member, DIU Computer & Programming Club (CPC)**
- **Volunteer, Daffodil Prothom Alo Bondhushava** (Community engagement & social volunteering)

PRACTICAL PROJECTS & BUSINESS IMPACT

- **Integrated Approach to Malware Detection Using Conventional and Ensemble Machine Learning Models (Undergraduate Thesis)** [[GitHub](#)] · [[Live Demo](#)] | *Python, Scikit-Learn, XGBoost*: Architected an advanced ensemble classification model achieving 90.16% accuracy across 6 threat families. Deployed an explainable, production-ready pipeline for seamless enterprise security integration.
- **Context-Aware Flight Delay Analytics Engine** [[GitHub](#)] | *Python, K-Means Clustering, DiCE*: Developed a segmented stacking ensemble with prescriptive analytics to optimize airline scheduling, delivering measurable business results through a custom Operational Stability Index.
- **Flood Risk Prediction & Policy Trust Framework** [[GitHub](#)] | *CatBoost, SHAP, LIME*: Engineered a high-precision model cutting high-risk errors by 50%, and invented a custom metric to guide data-driven disaster policy and risk mitigation.
- **Enterprise Property Management System** [[GitHub](#)] | *MySQL, Relational Database Design, Data Normalization*: Designed and engineered a normalized 23-table relational database schema to comprehensively manage tenant lifecycles, lease tracking, payment processing, and automated maintenance operations.

PUBLICATIONS & SUBMISSIONS

- **Context-Aware Machine Learning for Flight Delay Prediction: A Prescriptive Framework Integrating Explainable AI and Cost-Sensitive Decision** – *SN Computer Science*. (Under Review)
- **Integrated Approach to Malware Detection** — *Submitted to Journal of Machine Learning Research (JMLR)*
- **UFXI: A Unified Explainability Framework for Flood Risk Prediction** – *ADCAIJ*. (Under Review)

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- **5-Day AI Agents Intensive Course** — *Google*
- **Training on Database (MySQL/Oracle/SQL Server) 80 Hours** — *EDGE Program, Bangladesh Computer Council*
- **Machine Learning Using Python** — *Simplilearn*
- **Build Your Own Small Language Model** — *Google DeepMind*
- **Gemini Certified University Student** — *Google for Education*

LANGUAGES

- **Bangla:** Native Proficiency.
- **English:** Fluent Skills (CEFR C1 Level).
